

When Arizona Reads, Arizona Thrives
www.ReadOnArizona.org

MapLIT supports strategic planning to improve language and literacy outcomes for all Read On Arizona communities. MapLIT was created through a partnership among Read On Arizona, numerous state agencies, and the Maricopa Association of Governments.

Examples of encouraged use include:

- Identifying neighborhoods with high need and low service, using the literacy data map
- Exploring or tracking improvement over time, using tools from the data center
- Sharing information with Read On community partners and decision-makers to inform strategic planning centered around improving early language and literacy outcomes
- Presenting on the challenges and opportunities in the community with would-be partners
- Demonstrating need for additional resources in a grant or other proposal, with proper citations
