System Requirements – myON

myON® is a web-based platform that requires high speed Internet. Use it with Mac, PC, iOS, or Android over any type of network with headphones or speakers.

MINIMUM SYSTEM REQUIREMENTS
› DSL / Cable Internet connection, minimum 768 kbps download speed or higher.
› On PC or Mac, a web browser with JavaScript enabled, including Chrome (preferred), IE 7.0 (or higher), Firefox 10.0.X (or higher), Safari 5.0 (or higher)
› 1024x768 minimum resolution
› Flash Player 10 (or higher)

RECOMMENDED SYSTEM REQUIREMENTS
› DSL / Cable Internet connection, 4 mbps download speed or higher is recommended.
› On PC or Mac, a modern web browser with JavaScript enabled:
· Chrome (Preferred)
· Internet Explorer 9.0 (or higher)
· Firefox (current, or the last two versions)
· Safari (current, or the last two versions)
› On iOS, iOS 5.1 or higher, Safari 4 or Chrome web browser
› On Android, OS 3.0 or higher
› 1024x768 minimum resolution on a screen size of at least 7" x 9"

BANDWIDTH ESTIMATES
myON includes thousands of digital books that range in size from 8 to over 100 pages of multi-media with audio and graphics. Each book will take variable bandwidth, but after the one-time download on a machine, the pages are cached locally (subject to settings and lab policies).

FIREWALL AND IP ADDRESSES
These websites and IP addresses must be allowed by your firewall for myON to work properly:
Access to Port 443 must be allowed (for HTTPS access to myON.com).
